RIBBON-DISPENSER

RIBBON DISPENSER

Legro offers an extensive range of ribbon dispensers and accessories. Using our ribbon dispensers your rolls of ribbon are always easily accessible, where you need them, and ready for use.

Due to the wide range of products, we have created a separate product group. This makes it easier for you to find exactly the product you need, but of course dispensers can always be custom-made to meet any specific requirements you might have.

The basic range of dispensers is the Multi-Block family.

These consist of a single frame construction intended for 1 or 2 rows of rolls. The dispensers are available in a variety of widths and for rolls with a diameter of 10, 12.5 or 14 cm. The rolls are presented on a simple, removable tube. Thanks to an extensive range of accessories, you can mount the units on top of other dispensers, underneath a work surface or in a standalone position. A wide choice of accessories includes a scissor holder, cutter, tape holder and a label dispenser.

The Deluxe range of dispensers consists of a sturdy metal construction suitable for 2, 4, 6 or 8 rolls, up to a maximum width of 12 cm and a roll diameter of 9 cm.

When deciding where to position the dispenser you can choose from 2 different bases, wall brackets and a bracket for mounting on top of one of our paper dispensers. Each roll holder incorporates a spring feed system that prevents the ribbon unrolling unintentionally so that it is always ready for immediate use.

For this dispenser we offer a variety of accessories including a cutter, tape holder and a label tray for your name stickers. Stylishly shaped, they are finished in an attractive aluminium colour.
